

From the minds of children come dreams

Help your students reach them with K12

K12 has what school leaders need

K12 possesses years of experience working with and providing curriculum, administrative support, and management services to online schools across the country.

The complete curriculum for K-12

K12 is the leading online curriculum provider for the K-12 market. For grades K-8, we offer students mastery-based lessons in the core subjects, plus courses in Art, Music, and World Languages. Our high school curriculum includes a suite of more than 90 courses, including multiple levels of core courses, to meet the needs of diverse learners and prepare students for post-high school success.

Vital administrative support

With an included data management system, a proprietary online learning platform, and a secure school/family communications tool, K12 gives you unparalleled insight into your students and their families, as well as complete supervision of your staff.

Management services from start to finish

With parent outreach and enrollment services, professional development and operational training, and implementation support, K12's school management services enable your district's online school to start up quickly and operate smoothly.
